

The WINGS Approach to Social Emotional Learning: SUPPORT-ENGAGE-TEACH (SET)

When adults
Support, Engage,
and **Teach,**
students soar.

WINGS' approach to SEL is a multi-pronged approach. At the **core** lies adult SEL skills and practices. Once adults comprehend and internalize these skills on an individual level, they are then able to transfer their skills and knowledge in their capacity as educators, mentors, and youth workers. The **S-E-T framework** provides the building blocks that **allow adults to cultivate a culture of SEL** through positive student support and engagement, and implicit and explicit teaching.
