**SUBJECT: RECOMMENDATION LETTER FOR ECOSOFTT'S PARTICIPATION IN THE  
ASHOKA CHANGEMAKERS: CREATING SHARED VALUE PRIZE**

Dear Sir/Madam,

Ecosoftt is a Singapore company providing water and wastewater solutions for regions facing water shortages and water quality challenges, especially where centralised municipal systems are not adequate. The company is capable of designing and implementing a range of water and wastewater treatment technologies, which have been proven in multiple projects in Singapore, India and other markets.

PUB is Singapore's National Water Agency, and is responsible for the collection, production, distribution and reclamation of water in Singapore. Our mission is to ensure an efficient, adequate and sustainable supply of water to meet the needs of Singapore. Through sound watershed management, effective water treatment processes and continued investments in R&D, PUB has been delivering good quality water for the last four decades. We work closely with our industry partners to develop cost-effective and innovative water solutions to meet our water challenges.

As an industry partner in Singapore's vibrant water eco-system, Ecosoftt has worked with PUB on a number of projects in the water sector. This includes a survey of water consumption in 400 homes, and an ongoing project to Design and Construct a Sludge Digester in the 360,000m<sup>3</sup>/day Ulu Pandan Water Reclamation Plant.

Ecosoftt also continually invests in technology innovation. They are the recipient of a government grant for Test-bedding of Innovative Sustainable Solutions. As part of the grant, Ecosoftt developed the "Water SMART Blue Building" solution, which recycles and reuses greywater within a commercial building.

PUB has introduced Ecosoftt's solutions to many developing countries seeking innovative solutions to address water challenges. As a social enterprise, Ecosoftt channels technology and resources for water and sanitation projects in rural communities. We have witnessed the meaningful and impactful work which Ecosoftt has done for these communities.

Yours sincerely

Dr Pang Chee Meng  
Director  
Industry Development Department  
PUB, Singapore's National Water Agency
