## Re: Request for support to ESAFF Uganda.

I write this letter after the discussion we held on 11<sup>th</sup> September 2017 at the ESAFF Uganda office. We learnt of the work that your company is doing here in Uganda that you provide inclusive business training, enterprise business development services and support services to international non-government organizations, multinational cooperatives and research institutions hence we are interested in collaboration.

ESAFF Uganda is a small scale farmer (SSF) initiated and farmer-led advocacy movement which works to enhance the SSFs ability to make informed decisions and participate meaningfully in development processes at local, national, regional and global levels. ESAFF Members are involved in production of different agriculture products and hence are primary producers.

ESAFF Uganda would like to enter into a relationship with your organization through signing of an M.O.U and are interested in your support to ESAFF Uganda in the areas of Fundraising for small scale farmers' innovations and initiatives as well as introducing ESAFF Uganda to other like-minded entrepreneurs. ESAFF Uganda is also interested in building networks and creation of markets for her members.

I will be glad to receive a positive response from you.

Yours Sincerely,
